

October 4, 2007

Organizations Support the Child Support Protection Act, S. 803, H.R. 1386

Dear Member of Congress,

The 527 undersigned organizations are a diverse group representing child support enforcement professionals, state and local officials, low-income families, service providers, employers, and labor. We urge you to support S. 803 and H.R. 1386, the “Child Support Protection Act of 2007,” introduced by Senators Rockefeller and Cornyn in the Senate and Representative McDermott in the House. As of October 4th, S. 803 had 23 co-sponsors and H.R. 1386 had 47 co-sponsors. Both bills enjoy bipartisan support.

In 2006, the child support program collected \$24 billion for 17 million children—a fourth of the nation’s children. For every 74 cents spent by the federal government, the child support program collects \$4.58 in private child support dollars. The program doubled its collection rate in the past ten years, and is consistently among the Office of Management and Budget’s top-rated government programs.

The “Child Support Protection Act of 2007” would restore federal performance matching funds that were cut by the Deficit Reduction Act of 2005 and allow state child support agencies to maintain their level of performance to ensure that parents support their children.

If the funding is not restored, the Congressional Budget Office estimates that \$11 billion in support owed to children will go uncollected over the next ten years, even if states replace half of the lost federal funds. A Lewin Group study recently concluded that anticipated cuts are expected to affect all families receiving services; increase costs in programs such as TANF, Medicaid and Food Stamps; and show worsening effects over time. The cuts would reduce program revenues by 17 percent on average, but some states could lose up to 36 percent.

We hope that you will help protect a decade of hard-won progress in child support enforcement by supporting and working to pass the Child Support Protection Act this year.

Sincerely,
